AIDE MEMOIRE

During the September 9, 1977 meeting in Washington between His Excellency the President of Argentina and the President of the United States, President Carter mentioned that a group in the United States concerned with the subject of human rights had prepared a list of a number of people being detained in Argentina. President Carter acknowledged that the United States Government has no means of determining the reliability of this information, but the President indicated his wish to make the list available to the Government of Argentina for its use.

The United States Embassy to Argentina is pleased, therefore, to transmit the list mentioned in the September 9 meeting to the Government of Argentina.
